

Bank of America Portal – Upcoming Changes

To enhance security and standardize the login with other external Bank of America application portals, we will be changing the login screen sequence. The user will enter their username and password on the first screen followed by the MFA code entry on the second screen. Appearance and functionality for the remainder of the site will stay the same.

New Login Screen 1:

The image shows a screenshot of the Bank of America Portal login screen. At the top, the Bank of America logo is displayed. Below the logo, the text "Bank of America Portal" is written in red. The login form consists of three input fields: "Standard ID *", "Password *", and "Domain:". The "Domain:" field is a dropdown menu with "CORP" selected. Below the input fields is a blue "Sign On" button. Underneath the button, there are three sections: "Important Notice" with a link to access updates and information, "Need Help?" with a link to contact local Help or Service Desk, and "Legal Notice" with a warning about system security and data access.

Security Code Help
A Security Code is required for each login. If you do not have a Security Device go to Safepass portal.

For SMS/Email Security Code:

A Security Code is ONLY valid for 5 minutes and can ONLY be used once.

Important Notice
If you are unable to connect from your personal or vendor computer, update Citrix Receiver and VMware Horizon Client before contacting support.
